Environment | Policies

Impact on score ●●●●

● ↗ **75**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Environmental policy on energy consumption & GHGs

Environmental policy on air pollution

Environmental policy on water

Environmental policy on materials, chemicals & waste

Environmental policy on product use

Quantitative objectives set on energy consumption & GHGs

Comprehensive policy on a majority of environmental issues

Environment | Endorsements

Impact on score ●○○○

● → **0**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority No conclusive information on endorsement of external initiatives or principles on environmental issues

Environment | Measures

Impact on score ●●●●

● ↗ **100**/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Specialized treatment and safe disposal of hazardous substances or waste
Recovery and reuse of materials from company operations
Internal sorting & disposal of waste according to waste streams
Company specific actions to avoid road congestions
Actions for labeling, storing, handling and transporting hazardous substances
Use of eco-friendly or bio-based process materials
Mapping of waste streams
Studies on product environmental impact
Wastewater quality assessment
Actions to prevent emissions of atmospheric pollutants and other environmental nuisances (e.g. noise, odor, vibration, road and light)
Work processes or technologies implemented to mitigate emissions of dust and/or particulate matter
Training employees to safely handle and manage hazardous substances
Environmental emergency measures in place
Training of employees on waste reduction and sorting
Use of waste heat recovery system(s) or combined heat and power unit(s)
Technologies or practices to recycle or reuse water
Purchase and/or generation of renewable energy
Improvement of energy efficiency through technology or equipment upgrades
Training of employees on energy conservation/climate actions
Closed circuit system to reduce sulphur emissions
Work processes or technologies implemented to mitigate noise

Environment | Certifications

Impact on score ●●●○

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

Environmental management system certification covers between 51% and 75% of the assessed scope
Specific environmental certification
ISO 14001 certified

Environment | Coverage

Multiplying factor

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show an exceptional level of coverage of environmental actions or certification throughout company operations

Environment | Reporting

Impact on score ●●●○

● → 50/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Standard reporting on environmental issues

Reporting on total water consumption

Reporting on total weight of waste recovered

Company communicates progress towards the Sustainable Development Goals (SDGs)

Reporting on total weight of hazardous waste

Reporting on total weight of non-hazardous waste

Reporting on total amount of renewable energy consumed

Reporting on total energy consumption

Reporting on total amount of water recycled and reused

Reporting on total weight of air pollutants

Reporting on total gross Scope 1 GHG emissions

Reporting on total gross Scope 2 GHG emissions (market or location based)

Total gross Scope 2 reporting value confirmed in supporting documentation

Total gross Scope 1 reporting value confirmed in supporting documentation

Improvement areas

Medium priority Undertake external assurance or verification of your sustainability reporting

Medium priority Align your reporting with a sustainability reporting standard (such as GRI, ESRS, IFRS)

Medium priority Conduct a materiality analysis to identify relevant sustainability issues

Low priority No information related to whether any sites/operations are located in or near biodiversity-sensitive areas

Low priority No information on reporting on total gross Scope 3 GHG emissions

Low priority No information on reporting on total gross Scope 3 downstream GHG emissions

Environment | 360° Watch

Huvis Develops World's First Industrial Non-fluorine Water-repellent High-strength Yarn [KR]

www.businesskorea.co.kr | 12 Aug 2025

Huvis has achieved a world-first by developing industrial non-fluorine water-repellent high-strength yarn, proactively responding to global eco-friendly regulations. This new yarn, used in products like tents and billboards, provides essential water-repellency and durability without using Perfluorinated Compounds (PFAS), often called "eternal chemicals" due to their persistence and potential to accumulate in the human body. With the European Union pushing for a complete ban on PFAS next year, this innovation is crucial. Huvis's yarn maintains its color and strength during long-term outdoor

Huvis, full-scale commercial production of 'Ecoever LM', a waste plastic recycling product [KR]

www.todayenergy.kr | 20 Aug 2024

Huvis (CEO Kim Seok-hyun), a chemical fiber material specialist, announced on the 20th that it will begin commercial production of 'Ecoever LM', a chemically regenerated LMF (Low Melting Fiber) with an annual capacity of 16,000 tons. According to Huvis, 'Ecoever LMF' is the world's first chemically recycled LMF product developed using raw materials chemically recycled from waste plastic. Not only can it reduce the use of crude oil, but depending on the content of recycled raw materials, it can also reduce carbon dioxide emissions by half.

Labor & Human Rights Impact on score ●●●●

● ↗ **64**_{/100}

Labor & Human Rights | Policies Impact on score ●●●●

● ↗ **75**_{/100}

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Labor & human rights policy on social dialogue
Labor & human rights policy on working conditions
Labor & human rights policy on employee health & safety
Labor & human rights policy on child labor, forced labor & human trafficking
Labor & human rights policy on career management & training
Labor & human rights policy on preventing discrimination and harassment
Comprehensive policy on a majority of labor or human rights issues
Quantitative objectives set on employee health & safety

Improvement areas

Low priority Declares that no commitment or review has been conducted regarding payment of living wage

Labor & Human Rights | Endorsements Impact on score ●○○○

● → **0**_{/100}

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority No conclusive information on endorsement of external initiatives or principles on labor and human rights issues

Labor & Human Rights | Measures Impact on score ●●●●

● ↘ **75**_{/100}

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Skills development program tailored to employee needs
Age verification of candidates before hiring
Regular assessment of individual performance
Individual development and career plan for all employees
Actions to promote internal mobility
Training of employees on child labor, forced labor and human trafficking
Grievance mechanism on child labor, forced labor and/or human trafficking issues
The company declares its main operation(s) is located in a region where the right to freedom of association is not restricted by local law/regulation (not verified)
Employee representatives or employee representative body (e.g. works council)
Awareness training on discrimination and harassment
Actions to prevent workplace harassment
Communication to all employees of remuneration process (e.g. salary grid, procedure for salary advancement)
Actions to control hazardous substance exposure
Training of employees on health and safety risks and best working practices
Employee health & safety risk assessment
Equipment safety inspections or audits
Actions to control employee exposure to extreme climatic conditions
Actions to address stress and psychological wellbeing in the workplace
Compensation for extra or atypical working hours
Family Friendly programs (FFPs) implemented (e.g. parental or care leaves, childcare services or allowances)
Collectively bargained wages
Employee health and safety emergency action plan
Regular employee health check-up
Complaints procedure in place for employees to report on occupational health and safety issues
Preventive actions for repetitive strain injury (RSI)
Actions to manage working hours and overtime

Improvement areas

- Low priority Further develop your grievance mechanism on discrimination and harassment issues
- Low priority Further develop your grievance mechanism on working conditions

Labor & Human Rights | Certifications Impact on score ●●●○

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

Specific employee health & safety management system certification

Specific labor or human rights certification

Improvement areas

High priority Labor and human rights management system certification covers less than 26% of the assessed scope

Labor & Human Rights | Coverage Multiplying factor

● 50/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Improvement areas

Medium priority Supporting documents show a medium level of coverage of labor and human rights actions or certification throughout company operations

Labor & Human Rights | Reporting Impact on score ●●●○

● → 50/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Standard reporting on labor and human rights issues

Reporting on number of average training hours per employee

Company communicates progress towards the Sustainable Development Goals (SDGs)

Reporting on number of days lost to work-related injuries, fatalities and ill health

Reporting on number of recordable work-related accidents

Reporting on the percentage of women employed in relation to the whole organization

Reporting on ratio of the annual total compensation of the highest paid individual, to the median annual total compensation for all employees

Reporting on percentage of employees from minority and/or vulnerable groups at top management level

Report on average unadjusted gender pay gap

Reporting on the percentage of employees from minority and/or vulnerable groups in the whole organization

Report on percentage of women within the organization's board

Reporting on the percentage of women at top management level

Improvement areas

Medium priority Undertake external assurance or verification of your sustainability reporting

Medium priority Align your reporting with a sustainability reporting standard (such as GRI, ESRS, IFRS)

Medium priority Conduct a materiality analysis to identify relevant sustainability issues

Ethics Impact on score ●○○○

● ↘ 56/100

Ethics | Policies Impact on score ●●●●

● → 75/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

- Comprehensive policies on ethics issues
- Policies on corruption
- Policy on fraud
- Disciplinary sanctions to deal with policy violations
- Policy on information security
- Policy on money laundering
- Policy on conflict of interest
- Dedicated responsibility for ethics issues

Ethics | Endorsements Impact on score ●○○○

● → 0/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority
 No conclusive information on endorsement of external initiatives or principles on ethics issues

Ethics | Measures Impact on score ●●●●

● → 50/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Audits of control procedures to prevent corruption
Implementation of a records retention schedule
Whistleblower procedure for stakeholders to report information security concerns
Awareness training to prevent information security breaches
Whistleblower procedure for stakeholders to report corruption and bribery
Measures for gaining stakeholder consent regarding the processing, sharing and retention of confidential information
Training of employees on corruption and bribery prevention
Audits of control procedures to prevent information security breaches
Incident response procedure (IRP) to manage breaches of confidential information
Specific approval procedure for sensitive transactions (e.g. gifts, travel)
Measures to protect third party data from unauthorized access or disclosure

Improvement areas

High priority	No conclusive documentation regarding corruption risk assessments
High priority	No conclusive documentation regarding information security risk assessments
Low priority	No conclusive documentation regarding an anti-corruption due diligence program on third parties

Ethics | Certifications Impact on score ●●●○

● → 25/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.
